Bureau appreciates your efforts under the Counterintelligence Program. However, Newark should consider something different from the suggested item submitted in referenced airtel. Your submission by airtel captioned "Counterintelligence Program, Black Nationalist - Hate Groups, Racial Intelligence, Black Panther Party (BPP)," is quite similar and more applicable for use in the BPP Counterintelligence Program. Bureau airtel 10/20/70 approved Newark's proposal set out in NKairtel 10/13/70.

Newark report dated 9/18/70 captioned "Students for a Democratic Society, IS - SDS; Sedition" stated that no SDS activity is reported in the Newark, New Jersey, area. However, your submission in referenced airtel indicated that the handwritten letter to be sent to the BPP would be signed by "Newark SDS." Bureau feels that this would have little impact or cause no disruption in BPP headquarters, Jersey City, New Jersey, particularly since on October 15, 1970, Alan Spector, Education Secretary of the SDS/Worker Student Alliance, emphasized that his group no longer was connected with the Weatherman faction and that the Weatherman faction had split off from SDS. Spector also claimed that his group was opposed to recent bombings. Review of SDS report mentioned above from your office indicates that only Worker Student Alliance chapters are present in the State of New Jersey.

Newark should reconsider a submission under Cointelpro aimed at disrupting present main chapters of SDS/WSA in the State of New Jersey.

 Re Newark letter, 9/28/70.

In the 10/10/70 issue of, "The Black Panther", there are cartoons on pages 3, 4, and 5, depicting a woman holding a gun, a boy holding a gun and a "molotov cocktail" and an elderly man holding a gun.

It is suggested the following letter, handwritten on "5 & 10" store-type paper, be sent to the BPP at 93 Summit Ave., Jersey City, NJ, BPP Headquarters:

"Dear Pussycats:

"I just read the 10/10/70 issue of your paper, particularly pages 3, 4 and 5 and was much impressed with the people's Army. A woman, a boy and an old man. Man, you sure are tough. You're a joke man. You're some vanguard of the oppressed black.

"With your leaders fleeing the country and "Huey the Homo" afraid to raise his voice for fear he'll get busted again, I guess all you got left are the women, kids and old men. The rest are so dumb they can't be trusted with a weapon because they keep forgetting which end the bullet comes out of.

NOTE:

During the past academic year, Steven's Institute of Technology was the scene of a sit-in by a small group which agitated for a pass-fail examination system and a full time draft counselor. This engineering school has not been politically oriented in the past. Newark suggests that the President might be encouraged to take a strong stand against this type of activity if he was to receive copies of the above document which analyzes the riots that occurred in Columbia in April, 1968. The article points out how a small group of dissident Students for a Democratic Society (SDS) students was able to totally paralyze a great university. As it may help to strengthen the President's stand and since the Bureau will not be identified, it is being approved.

RE: Newark letter, 3/24/70.

It is proposed, with Bureau approval, to send to President JESS H. DAVIS of Steven's Institute of Technology (SIT), Hoboken, NJ, five copies of BARRON's reprint, "Campus or Battleground? Columbia Is A Warning to All American Universities". This proposal is made in view of the recent sit-in at SIT by a very small minority of students, 10 out of 1300 undergraduates, who agitated for a pass-fail examination system and a full-time, SIT paid, draft counselor on campus.

SIT is one of the foremost engineering schools in the country and, although there is no SDS Chapter there or SDS activity noted, perhaps the reprint will alert the officials there as to what could happen at SIT if such a situation as the sit-in is given some headway.

Newark proposes writing in red ink across the top reprint the phrase, "It begins with 10 like a deadly spore and soon the whole campus is infected with an incurable affliction. Don't give in to a vocal minority that wants agitation for agitation sake".

The reprints will be mailed from Union City, N.J., which borders Hoboken, N.J., in a plain, commercially available envelope purchased in an office supply store, holographically addressed by an Agent of the Newark Office.

All precautionary measures will be taken to prevent identification of the FBI as the source of the articles.

Re Newark letters 2/19, 4/1/69.

There are enclosed for the Bureau's perusal an issue of a newspaper published in NYC called "SCREW" dated 2/7/69 containing a type of filth that could only originate in a depraved mind.

It is representative of the type of mentality that is following the New Left theory of immorality on certain college campuses. Officials at Rutgers are, at the very least, condoning its distribution since no curtailment of its sale or distribution has been imposed by them. This paper is being given away and sold inside Conklin Hall, Rutgers University, Newark by "hippie" types in unkempt clothes, with wild beards, shoulder length hair and other examples of their non-conformity.

Newark proposes that this paper be sent to Senator WILLIAM T. HIERING, in the NJ Legislature.

It is suggested also that the following letter, typewritten on general "5x10" stationary be sent with the paper and mailed at Newark in vicinity of Rutgers campus:

"Dear Sir:

"I am a student at Rutgers Newark with a deep desire to educate myself and make for myself and my family, a place of respect in our great country.

I believe however that we are approaching an era where the bad elements will outweigh the good. I am appalled at what is condoned by officials here at Newark Rutgers. I enclose an example of what is sold and freely distributed inside Conklin Hall, Rutgers, Newark. Would you want your children or grandchildren, especially young girls, subjected to such depravity? The question is of course rhetorical, no decent person would. But this is becoming a way of campus life. Poison the minds of the young, destroy their moral being and in less than one generation this country will be ripe for its downfall.)

One can say, these slime are in the minority but all countries that were once great, but don't exist now, contained that first minority (Ancient Rome and Greece for example-Socrates warned them and now they and their culture are gone.)

Safely assuming these papers represent an evil force and it is distributed by a minority on campus, then why do the moral majority have to put up with it.. Rutgers is supported by public funds and as a representative of the people, you and your colleagues should have the courage to take the initiative now to see that people like Mason Gross do not misuse or misdirect those funds by condoning such activity in the name of "academic freedom" and "free speech and free press."

What irony if the money the people of New Jersey voted for public education was instrumental in toppling their own society.

You should exhibit this filth on the Senate floor for your colleagues to see and it should also be brought to the attention of the Joint Legislative Education Committee.

It surpasses greatly the experimental literature distributed to the English classes at Paterson State College.

A Concerned Student"

Bureau requested to return enclosure with its comments.

The experimental literature referred to in the letter is a mimeographed copy, run off by Paterson State College on their machine, of a short story titled "Tea Party" published in "Evergreen Review". It was distributed by professors of literature to students in composition classes, at Paterson State College. It contained 79 obscene terms referring to incest, sexuality and biology, four dozen "cuss" words and a dozen instances of taking the Lord's name in vain.

The NJ Senate as a result ordered an investigation by the Senate Education Committee, headed by Senator WILLIAM

Newark believes an opportunity now exists to focus lawmakers attention on the depraved nature of the type of student now infesting campus activities as exemplified by New Left adherents.

Re Bulet 5/10/68, and Newark letter 11/5/68.

I. POTENTIAL COUNTERINTELLIGENCE ACTION

Newark contemplates, when appropriate, anonymously mailing Barron's reprint "Campus or Battleground ? Columbia is a Warning to All American Universities," to various on-campus organizations and for their leaders, who are opposed to New Left campus activities.

Newark, by separate letter, is forwarding Bureau a photograph of the back cover of "American Heritage," October, 1968, issue, which refers to an "old fashioned" method of discipline for MARK RUDD, leader of the Columbia University protest. Bureau is being asked to consider duplicating it for mailing to college officials.

II. PENDING COUNTERINTELLIGENCE ACTION

The pamphlets depicting certain SDS members at Princeton University as akin to apes were mailed in the Princeton area but to date no information regarding their effect, has been received.

III. TANGIBLE RESULTS

There has been no tangible results as a result of counterintelligence action.

NOTE:

"American Heritage" magazine ran a drawing on its back cover ridiculing Mark Rudd of SDS. Newark Office proposed that this cover be reproduced and send to college administrators in the New Jersey area. At this time, it does not appear that the impact of such mailings would be effective. Rudd, who led the Columbia University riots, has not been in the news during recent months. Therefore, this material is not being reproduced.

PRECEPTOR. Put out thy hand, Master Rudd.

MASTER RUDD. I protest thy impending authoritarian brutality, Mr. Kirk. As chairman of Young Scholars for a Democratic Society, Benedict Arnold Chapter, I demand the dismissal of ye reactionary faculty of this little old red schoolhouse. We propose to occupy these rooms, to rifle thy files, and to fly ye revolutionary ensign until our demands be met. Ye study of Latin and all other difficult matters is to be abolished, ye Mohawk Indian enrollment tripled, and ye militia run off ye campus. We are to be permitted to use blasphemous speech, and thou art to grant us an amnesty for all our trespasses.

While the article written by Leo Rosten appearing in "Look" magazine is well written and is a strong argument against SDS, it is not felt that the results that could be expected from having this article reprinted and distributed by the Bureau would warrant such an undertaking.

This is particularly true in view of the fact that this article has already had wide distribution through "Look" magazine itself.

NOTE:

By reairtel NK suggested the Bureau prepare reprints of the Leo Rosten article appearing in the 11/12/68 edition of "Look" magazine concerning SDS. This is a well written article which criticizes SDS for its disruptive nature. NK suggested that this article could be used to advantage in anonymous mailings to SDS members, parents of SDS members, and to faculty members at schools where SDS is active.

Agreed. The question is: How best should it be

other nation in the world.
The middle class exploits the underemployed.
I have examined that idea. I found the underemployed
in worse off condition than all the unemployed
unusually depressed. The former were better
off. Think of the economic saving involved. The
middle class in the U.S. is the richest the
world has ever known. It is not the underemployed

Again and again you say, "The American can pro-

It is a common mistake to suppose that the "democratic" and "autocratic" forms of government are the only two possible forms of government. In fact, there are many other forms of government, and the world is full of them. The most common of these are the "constitutional" and "parliamentary" forms of government. In these forms, the power is divided between the executive and the legislature, and the executive is responsible to the legislature. This is the form of government which is found in most of the advanced countries of the world. The other form of government is the "absolute" form of government. In this form, the power is concentrated in the hands of a single person, the monarch or the dictator. This is the form of government which is found in most of the backward countries of the world.

there is no free market, there is no free thought, no free art, no free politics, no free life? You rage against "a heartless country in which the poor get poorer." Alas, poor Yoricks: The decline in poverty in the U.S. is among the more astonishing and hopeful facts of human history. (In 1900, about 90% of our population was poor; in 1920—50%; in 1930—34%; in 1968—15%). You will cry that 15% is outrageous. Agreed. The question is: How best abolish it? (A negative income tax makes more sense than anything your colleagues propose.) The middle class exploits the unemployed? Please examine that cliché. Would the middle class be worse off or better off if all the unemployed magically disappeared? Obviously, much better off: Think of the enormous saving in taxes, the enormous improvement in public services, the enormous benefits from refocused energies now used to ameliorate poverty's abominable toll.

You say your generation "wants to be understood." Well, so does mine. How much have you tried to understand others? You pillory us for injustices not of our making; frictions not of our choice; dilemmas that history (or our forebears or the sheer intractability of events) presented to us. You say we "failed" because you face so many awful problems. Will you then accept blame for all the problems that exist (and they will) when you are 20 years older? And how do you know that all problems are soluble? Or soluble swiftly? Or soluble peacefully? Or soluble, given the never-infinite resources, brains and experience any generation is endowed with?

I say that you are failing us—in failing to learn and respect discomforting facts; in failing to learn how to think (it is easier to complain); in using violence to shut down colleges; in shamefully denying the freedom of others to study and to teach; in barbarously slandering and abusing and shouting down those who disagree with you; in looting, stealing and defiling; in failing to see how much more complicated social problems are than you blindly assume; in acting out of an ignorance for which idealism is no excuse, and a hysteria for which youth is no defense. "Understanding"? You don't even understand that when you call me a "mother," you are projecting your unresolved incestuous wishes onto me. The technical name for such projection, in advanced form, is paranoia.

Again and again, you say, "the American people want" or "demand" or "insist." How do you know? Every poll I have seen puts your position in a minority. You just say, "the American people demand"—then add whatever you prefer. This is intellectually sloppy at best, and corrupt at worst.

You want to "wreck this slow, inefficient democratic system." It took the human race centuries of thought and pain and suffering and hard experiment to devise it. Democracy is not a "state" but a process; it is a way of solving human problems, a way of hobbling power, a way of protecting every minority from the awful, fatal tyranny of either the few or the many.

IFU ROSTER

only system man has discovered that makes possible change without violence. Do you really prefer bloodshed to debate? Quick dictators are slow law? This democracy made possible a great revolution in the past 35 years (a profound transfer of power, a distribution of wealth, an improvement of living and health) without "liquidating" millions, without suppressing free speech, without the obscurities of dogma enforced by terror. This "slow, inefficient" system protects people like me against people like you; and (though you don't realize it) protects innocents like you against those "reactionary fascist forces" you fear: They, like you, prefer "action to talk." As for "security"—at what price? The most "secure" of human institutions is a prison; would you choose to live in one?

You want "a society in which the young speak their minds against the Establishment." Where have the young more freely, recklessly and impolitely attacked "the Establishment"? (Every political order has one.) Wherever "our heroes"—Marx, Mao, Ché—have prevailed, students, writers, teachers, scientists have been punished with hard labor or death—for what? For their opinions. Where but in "fake democracies" are mass demonstrations possible, or your bitter (and legitimate) dissent televised?

You rail against "leaders crazed with power," who "deceive the people." Your leaders are self-dramatizers who demand that power, which would create them, and they deceive you in not telling you how they plan your "confrontations"—to force the police to use force, whose excesses I hate more than you do, unlike you, want no one put "up against the wall." No "cheap politician" more cynically deceived you than fanatical militants did—and will. Your support feeds their neurotic (because extremist) needs. Washington's "Non-Violent Coordinating Committee" has engaged in gunfire for three days as I write this.

You say Marcuse "shows that capitalist freedom actually enslaves." (He doesn't "show"—he only says.) He certainly does not sound enslaved. And does mouthing fragments of 19th-century ideology (Marx, Bakunin) really liberate? And is not Marcuse 40 years older than 30, your cutoff on credibility? Incidentally, would you trust your life to a surgeon under 30, who never finished medical school? Your irrationality makes me wonder how you were ever admitted into Columbia. You confuse rhetoric with reasoning. Assertions are not facts. Passion is no substitute for knowledge. Slogans are not solutions. Your idealism takes no brains. And when you dismiss our differences with contempt, you become contemptible.

Very sincerely yours,
LEO ROSTEN

P.S. Please don't take any more courses in sociology, which seduces the immature into thinking they understand a problem if they discuss it in polysyllabic jargon.

To an angry young man

I HAVE BEEN GETTING lusty (cheers and jeers for a ruseful little paragraph I recently wrote about student riots. The most eloquent (and savage) letter ended: "Drop dead! I!" Another diatribe was signed "Columbia Senior." I wish I knew where to send this reply to both: one to the economics department, Dear? and one to the university's library. It will upset you to learn that I agree with many things you said. For instance: "Don't question our sincerity!" I don't. You are about as sincere as anyone can be. You are sincerely unhappy, sincerely frustrated and sincerely confused. You are also sincerely wrong about the few facts you cite, and sincerely illogical in the violent conclusions you reach. Besides, what does "sincerity" have to do with issues? Any insane asylum is full of sincere patients. Hitler was undoubtedly sincere. So are the followers of Voliva, who think the world is sincerely flat.

I sadly agree that your college courses have been "outrageously irrelevant to the times"—because your letter reveals that you could not pass a freshman exam in at least three fields in which you pass such sweeping judgments: economics, history, political theory.

You say, "Destroy a system that has not abolished unemployment, exploitation and war!" By the same reasoning, you should blow up all hospitals (and perhaps execute all doctors, biologists and researchers): they have not abolished disease.

Before you destroy a system, propose another that will solve (not hide, shift or disguise) unemployment, "exploitation," war. Anyone can promise "Utopia—without specifying" a program. Tom Hayden, idol of the New Left, has said: "First we'll make the revolution—then we'll find out what for." Would you employ a plumber who rips out all the pipes in your house before he learned how to repair a leak?

You say, "The mass media are not telling us the truth." Then how and from whom did you learn the "evils" you correctly deplore? After all, your information comes from one or another organ of—the mass media. This society is only interested in higher prices and profits. You apparently do not understand this society, or a society, or the function of prices (and profits) in any economy. Has it never occurred to you that the marketplace is a polling booth? That buying is voting? That no economic system is possible without some form of pricing, without some measure of efficacy or worth? Has it never occurred to you that profits are a form of proof (that something gives satisfaction to those who pay for it)? Perhaps you should examine the public uses that we make of private profits—through taxation.

The countries that follow your platitudes, "production for use," without exception produce far less for their people to enjoy, of much shoddier quality, at much higher prices (measured by the hours of work needed to buy something). Don't you know that "Socialist" countries are smuggling "capitalist" incentives into their systems? Has it not dawned on you that wherever and whenever

there is no free market, there is no free thought, no free art, no free politics, no free life? You rage against, "a heartless country in which the poor get poorer." Alas, poor Yoricks: The decline in poverty in the U.S. is among the more astonishing and hopeful facts of human history. In 1900, about 90% of our population was poor; in 1920—50%; in 1930—34% and in 1968—15%. You will cry that 15% is outrageous. Agreed. The question is: How best abolish it? A negative income tax makes more sense than anything your colleagues propose. "The middle class exploits the unemployed." Please examine that cliché. Would the middle class be worse off or better off if all the unemployed magically disappeared? Obviously, much better off: Think of the enormous saving in taxes, the enormous improvement in public services, the enormous benefits from refocused energies now used to ameliorate poverty's abominable toll.

You say your generation "wants to be understood." Well, so does mine. How much have you tried to understand others? You pillory us for injustices not of our making; frictions not of our choice, dilemmas that history (or our forebears or the sheer intractability of events) presented to us. You say we "failed" because you face so many awful problems. Will you then accept blame for all the problems that exist (and they will) when you are 20 years older? And how do you know that all problems are soluble? Or soluble swiftly? Or soluble peacefully? Or soluble, given the never-infinite resources, brains and experience any generation is endowed with?

I say that you are failing us—in failing to learn and respect discomforting facts; in failing to learn how to think (it is easier to complain); in using violence to shut down colleges; in shamefully denying the freedom of others to study and to teach; in barbarously slandering and abusing and shouting down those who disagree with you; in looting, stealing and defiling; in failing to see how much more complicated social problems are than you blindly assume; in acting out of an ignorance for which idealism is no excuse, and a hysteria for which youth is no defense. "Understanding"? You don't even understand that when you call me a "mother-f---er," you are projecting your unresolved incestuous wishes onto me. The technical name for such projection, in advanced form, is paranoia.

Again and again, you say, "the American people want" or "demand" or "insist." How do you know? Every poll I have seen puts your position in a minority. You just say, "the American people demand"—then add whatever you prefer. This is intellectually sloppy at best, and corrupt at worst.

You want to "wreck this slow, inefficient democratic system." It took the human race centuries of thought and pain and suffering and bard experiment to devise it. Democracy is not a "state" but a process; it is a way of solving human problems, a way of hobbling power, a way of protecting every minority from the awful, fatal tyranny of either the few or the many.

Whatever its imperfections, democracy is the

only system man has discovered able to change without violence. It is a system that has stood the test of time, and it is a system that has made possible the most rapid and most complete change in the history of the world. This democracy made possible in the past 35 years (a profound change in the distribution of wealth, an increase in health, without liquidating or suppressing any speech, without any of the atrocities of the past) is a system that has made possible the most rapid and most complete change in the history of the world. Democracy is not a "state" but a process; it is a way of solving human problems, a way of hobbling power, a way of protecting every minority from the awful, fatal tyranny of either the few or the many.

only system man has discovered that makes possible *change without violence*. Do you really prefer bloodshed to debate? Quick dictates to slow law? This democracy made possible a great revolution in the past 35 years (a profound transfer of power, a distribution of wealth, an improvement of living and health) without "liquidating" millions, without suppressing free speech, without the obscenities of dogma enforced by terror.

This "slow, inefficient" system protects people like me against people like you; and (though you don't realize it) protects innocents like you against those "reactionary . . . fascist forces" you fear: They, like you, prefer "action to talk." As for "security"—at what price? The most "secure" of human institutions is a prison; would you choose to live in one?

You want "a society in which the young speak their minds against the Establishment." Where have the young more freely, recklessly and intransigently attacked "the Establishment"? (*Every* political order has one.) Wherever "our heroes—Marx, Mao, Ché" have prevailed, students, writers, teachers, scientists have been punished with hard labor or death—for what? For their opinions. Where but in "fake democracies" are mass demonstrations possible, or your bitter (and legitimate) dissent televised?

You rail against "leaders crazed with power," who "deceive the people." Your leaders are self-dramatizers who demand that power, which would craze them, and they deceive you in not telling you how they plan your "confrontations"—to force the police to use force, whose excesses I hate more than you do. *I*, unlike you, want no one put "up against the wall." No "cheap politician" more cynically deceived you than fanatical militants did—and will. Your support feeds their neurotic (because extremist) needs. Washington's "Non-Violent Coordinating Committee" has engaged in gunfire for three days as I write this.

You say Marcuse "shows that capitalist freedom actually enslaves." (He doesn't "show"—he only *says*.) He certainly does not sound enslaved. And does mouthing fragments of 19th-century ideology (Marx, Bakunin) really liberate? And is not Marcuse 40 years "older than 30," your cutoff on credibility? Incidentally, would you trust your life to a surgeon under 30—who never finished medical school?

Your irrationality makes me wonder how you were ever admitted into Columbia. You confuse rhetoric with reasoning. Assertions are not facts. Passion is no substitute for knowledge. Slogans are not solutions. Your idealism takes no brains. And when you dismiss our differences with contempt, you become contemptible.

Very sincerely yours,

Re Bureau letter 5/10/68.
Newark airtel 9/19/68.

I. POTENTIAL COUNTERINTELLIGENCE ACTION

Specific recommendations have been made for the distribution of a pamphlet depicting certain SDS members at Princeton University as resembling apes. It is anticipated the pamphlets will be sent to and circulated by, pro-American, anti-SDS individuals who will welcome the opportunity to ridicule these SDS members.

II. PENDING COUNTERINTELLIGENCE ACTION

Copies of an article appearing in "Barron's" Magazine, regarding the SDS uprising at Columbia University in 4/68, furnished by the Bureau, 7/29/68, were mailed anonymously to three of the Deans and the President of Rutgers University on 8/5/68.

III. TANGIBLE RESULTS

"The Star Ledger" a local daily morning newspaper, issue dated 9/18/68 announced that Rutgers University policy on student demonstrations warn of immediate suspension and possible arrest. Another element of the policy adopted by Rutgers indicates that those involved in such disruptions who are not members of the academic community will be dealt with by off-campus authorities. The "Barron's" article makes note that several hundred sympathizers, including many outsiders swelled the SDS ranks at Columbia.

The attitude taken by Rutgers is similar to the proposal in the Barron's article: urging colleges to refrain from giving sanctuary to any group which advocates the initiation of physical force and that the college act immediately and without hesitation to expel and criminally

prosecute any student guilty of such tactics. Rutgers, it is noted, has reversed its previous attitude and has now adopted a policy of suspension without hearing for campus dissenters.

Newark is of the opinion that the "Barron's" article may have stimulated and given incentive to the governing body of Rutgers in prescribing the rules of desired campus conduct.

Reurairtel 9/19/68.

M Reairtel states that 120 copies of the previously prepared pamphlets regarding the SDS at Princeton University would be sent to conservative, [REDACTED], who would be expected to distribute them at a Conservative Club meeting scheduled 9/27/68.

It is felt that some of these pamphlets may be sent to [REDACTED] with a handwritten anonymous note requesting her to distribute them at the Conservative Club meeting. It is not felt that a number as large as 120 should be used in this manner. It would appear that 50 would be more realistic.

It is further noted that reairtel mentions nothing of distributing the pamphlets to the various eating and debating clubs on campus. You should consider sending some of these to the above organizations as well as to other professional societies at Princeton. Of course, all distribution should be sent anonymously with all measures being taken to protect the Bureau as their source.

NOTE:

On Newark's suggestion we have previously prepared a pamphlet which casts SDS in a derogatory light. The pamphlet depicts certain Princeton SDS leaders as apes. Newark has suggested that of the 150 pamphlets supplied 120 of these be sent to an outspoken conservative who would be expected to distribute them at a Conservative Club meeting at Princeton University. While the Conservative Club may make use of this among conservative people, it is felt that a greater distribution should be made of the pamphlet so that a broader cross section of the student body at Princeton will receive it.

DISRUPTION OF NEW LEFT

Re Newark letter dated 9/12/68.

The following concerning the mailing of 150 pamphlets depicting certain SDS members at Princeton University (PU) as akin to apes.

It has been determined that on 9/27/68, a dinner is to be held at Princeton, N.J., which is being sponsored by the PU Conservative Club. A large number of PU students, friends, and faculty is expected to attend. The Conservative Club is comprised of pro-American students and adults who are outspoken in their dislike for SDS and any anti-American sentiment.

Most outspoken member of the Conservative Club is [redacted] who is also on its committee. On occasion she distributes pro-American anti-communist leaflets on Nassau Street, in Princeton, N.J., and is reportedly a supporter of the JOHN BIRCH SOCIETY. Newark believes that 120 of the pamphlets be sent to her in the hope that she will distribute them at the Conservative Club dinner or on the streets in vicinity of PU. Another member of the Conservative Club, who is opposed to anti-war demonstrators, is [redacted].

[redacted] all members of the Conservative Club, are also very pro-American and anti-SDS in their thoughts and actions. It is suggested that five copies of the pamphlet be sent to each of above.

Attached to this airtel for the Bureau's information are Xerox copies of a news article that appeared on page one and page 18 of the 9/18/68 issue of "The Star Ledger" a major morning newspaper of general public circulation in the Newark metropolitan area. It deals with the policy of Rutgers University as regard to student demonstrations.

It is noted that the Newark office mailed copies of the reproduction of the article which appeared in "Barron's" magazine entitled "Campus or Battleground? Columbia is a Warning to All American Universities", to three deans and the President of Rutgers University on 8/5/68. This may have prompted the stern attitude of Rutgers' officials.

Protesters risk Rutgers' wrath

By ROBERT J. DRAUN

The Rutgers University policy on student demonstrations, a stern statement complete with warnings of immediate suspension and possible arrest, has been circulated throughout the school for "modification or endorsement," it was learned yesterday.

The distribution of the statement, generally considered more militant than previous pronouncements on student disorders, is expected to unleash a strong debate on all three major campuses of the sprawling state school.

The new policy proposal, while retaining elements of

a conciliatory policy statement released last November, warns that student failure to heed a request to cease a "disruptive" demonstration may "compound the offense and reduce the university's ability to resolve the problem internally."

In addition, the document warns that a student "could be" subjected to immediate suspension if he fails to comply with a request to stop the demonstration. The suspension would then be "subject to subsequent review."

In the past, Rutgers University disciplinarians rarely, if ever, suspended a student without a hearing by a

judicial committee made up of faculty members, students and administrators.

The apparent rationale behind the new suspension policy is reflected in another element of the new policy proposal which indicates "those involved in such disruptions who are not members of the academic community will be dealt with by off-campus authorities."

The logic goes that those students who have been suspended without a hearing can no longer be considered members of the academic community and then the local police can be asked to deal with them.

Theoretically, this means that if Rutgers students attempt a Columbia-like takeover of key buildings, they could be suspended immediately and subject to arrest for being trespassers.

In past practice, however, Rutgers deans have shown some patience in dealing with campus dissenters. When a group of students closed the Army Reserve Officer Training Corps headquarters last year, the Rutgers deans allowed them to hold the

building for three days until a hearing could be convened. All the students left their barricades in time to attend the hearing.

TIGHTENING UP

The new suspension-without-hearing policy, however, may be a sign of administrators' collective patience may not be so apparent in future disorders.

Although students have not yet been given the new policy statement, a few students who were told about it reacted negatively.

"It's too bad about that," one Rutgers student said. "Rutgers had a chance to show it wasn't like Columbia. They didn't have to greet returning students with that kind of policy."

Another Rutgers student expressed the feeling "the policy would not be necessary."

"There is a lack of issues on this campus. We do not even have the Institute for Defense Analysis," he said. The Institute, or the IDA, is a nation-wide consortium of universities which provides specialists for government communications research. The IDA includes researchers at Princeton

and Columbia Universities.

What may be the most important aspect of the new policy is that it stipulates it could be modified by students. Such a channel for modification is not explicitly described in the statement although university Dean of Affairs Earle W. Clifford said he wants "student input of opinion on the new policy."

"We're going to want meaningful student involvement in determining this kind of policy. We do not want to have some student or group of students saying we issued a policy without their approval."

The dean further indicated that if students are given the chance to express themselves, "we will have made this university the kind of academic community which doesn't need student disruptions."

There are some indications that the university will hold itself ready to back down from such a militant stance if the students reject it too strongly — just to show the students they do, in fact, have some voice in the regulations under which they must live.

Likewise at Princeton University, Newark has under development as a Potential Confidential Source, [REDACTED] age 37, who is associated with the Admissions Office there in a non-salaried position. In this position, [REDACTED] who has an independent income, investigates, interviews and makes recommendations on prospective students to the university and has the opportunity of meeting their families before admittance. He is completely opposed to the ideals of the New Left as symbolized by the SDS on the Princeton Campus, and has furnished the Newark Office background information and personal knowledge on individuals associated with SDS. It is believed that Newark will, through [REDACTED] be able to develop additional sources on the Princeton University Campus among students. (u)

Evaluation as to Potential Violence at Princeton University

It has been stated by ROBERT F. GOHEEN, President of Princeton University, that Columbia style rebellions will not get off the ground at Princeton. He warned that any disruptive protests will be broken up by outside law enforcement officials. He will not tolerate any demonstrations that disrupt the regular and essential operations of Princeton. (u)

On the other hand, he has also taken a conciliatory attitude to properly presented demands by the student body requesting a larger voice in the running of the university and any decision making. (u)

It is felt that because of the attitude of [REDACTED] there will still be demonstrations at Princeton by SDS, but there should be no campus violence. (u)

At Rutgers University, New Brunswick, NJ, Mr. [REDACTED] and at Rutgers University, Newark, NJ, Mr. [REDACTED] have furnished background information on students and have, through their position, been aware of proposed events scheduled to take place among New Left students. In addition at Newark, the Newark College of Engineering (NCE) Campus adjoins the Rutgers, Newark Campus. Mr. [REDACTED] NCE, has proved to be cooperative in furnishing information to the Newark Office. He has noted that the administration at NCE is most interested in any student activities at Rutgers, Newark which might, through the proximity of the campuses, have an effect on the NCE Campus. [REDACTED] is especially concerned with SDS activities on Rutgers, Newark Campus and through NCE student sources who daily visit the Newark Campus, he is in a position to keep abreast of planned activity of SDS. In addition, Newark has some of its own employees attending classes at Rutgers University, Newark, and they too, where possible, are in a position to furnish information.

Evaluation as to Potential Violence

Because of the extremist image of SDS, especially at RUNB, it is felt that the potential towards violence there is small because students are deterred from involving themselves. Pending legislation harshly dealing with campus rioters will also act as a deterrent against potential rioters and disrupters.

Evaluation as to Potential Violence

The attitude of the 4,000 students at RUN may be indicated by the attitude of the school newspaper, "The Rutgers Observer" which approved of the disciplinary probation of some 37 students who blocked the Dow recruiter. Also, the administration of the university in Newark has been described as generally progressive and liberal and in favor of more student participation.

In view of the above, no potential violence is anticipated on campus.

The newest chapter of SDS in NJ is located at St. Peter's College in Jersey City, NJ and comprises at the most 12 members. The Dean of Student Activities at this college has been contacted and is cooperative and available to furnish information on any New Left activities on this campus. (u)

Evaluation as to Violence Potential

Based on its past activity and lack of enthusiastic reception by the student body at SPC, it is felt the SDS at SPC poses no real problem in the way of campus violence. (u)

COMMENTS RE GENERAL COVERAGE OF NEW LEFT
ACTIVITY IN NEW JERSEY COLLEGES

Concerning the above-named campuses where there is SDS or New Left activity, Newark has designated specific agents the assignment of developing additional informants and sources so the Bureau's responsibility will be met in this field of investigation. Likewise, on other campuses throughout the state where there has been no New Left activity but where possibility exists that it might occur, Newark is also making specific assignments to review our coverage at these institutions so this office will be aware of the emergence of any New Left activity. (u)

Newark maintains constant liaison with military intelligence groups in this area, and the suggestion of the Bureau relative to obtaining the names of military intelligence personnel recently or about to be discharged is being discussed with the various agencies looking towards the development of coverage either in this or other areas of the country. (u)

The military agencies in this area have indicated that while some of their personnel do attend college classes, most personnel do find it difficult due to the uncertainty of their assignments. The military agencies advised that they will re-emphasize to any personnel attending classes that they should be alert to observe any activity and report any information coming to their attention while attending (u)

PRINCETON UNIVERSITY
PRINCETON, NEW JERSEY

On February 21, 1968, Mr. [REDACTED] Princeton University, advised [REDACTED] enrolled at Princeton September 19, 1966. He was born May 23, 1948, New York City, father and guardian [REDACTED] New York City.

On March 15, 1968, the aforementioned confidential source advised [REDACTED] is one of the principal leaders and active members of the SDS chapter at Princeton University. [REDACTED] an extreme radical whose views are anti-war regarding Vietnam.

The records of the [REDACTED] describe [REDACTED] as a white male, born March 31, 1947 at Cleveland. On July 18, 1967, he was arrested by the Cleveland Police Department on a charge of disorderly conduct arising from his participation in a picketing demonstration at the Cleveland Selective Service System Induction Center.

On May 14, 1968, [REDACTED] was arrested October 23, 1967 and charged as a disorderly person. He was one of 40 persons blocking the doors at the entrance to the Institute For Defense Analysis (IDA). Seaton plead guilty and was fined \$40.

On May 15, 1968, the above confidential source who has furnished reliable information in the past advised that Seaton is one of the principal leaders and active members of the SDS chapter at Princeton University.

On June 26, 1967, a second confidential source who has furnished reliable information in the past advised that [REDACTED] was a registered convention delegate attending the SDS National Convention in Ann Arbor, Michigan, June 25-30, 1967.

[REDACTED]

The records of the Garden State Credit Bureau reveal that [REDACTED] was born January 19, 1947 and is a resident of [REDACTED] Orange, New Jersey.

[REDACTED] was arrested on October 23, 1967 for blocking the entrance to the IDA during a demonstration by the Princeton Chapter of SDS, according to [REDACTED] Security Officer, IDA, on October 23, 1967.

The November 24, 1967 issue of the "Newark Evening News" contained an article indicating the arrested pickets at IDA were fined \$40.

3. Summary of Campus Disruptive Activities

The first confidential source mentioned advised on June 12, 1968 that on October 23, 1967 about 40 persons, representing the SDS chapter at Princeton University, caused the entrance to the Institute For Defense Analysis (IDA), Princeton, New Jersey, to be blocked. IDA is located adjacent to the Princeton Campus and the SDS chapter was objecting to its presence on the campus. Because the group would not disperse, it was necessary for the Princeton Police to physically remove 31 demonstrators who were charged with being disorderly persons. Both Seaton and Tarlau were in this group.

The above source also added on June 12, 1968 that the SDS chapter also participated in the picketing of job interviews by a representative of Dow Chemical Company, who was interviewing prospective employees for the company. This demonstration was orderly and no incidents occurred.

The first source also advised on June 12, 1968 that in early May, 1968 a march, sponsored by SDS on Nassau Hall, Princeton University, took place. The purpose of this demonstration was to protest the school administration's inactivity on student demands. There were no incidents.

**NEW LEFT ACTIVITY
PRINCETON UNIVERSITY
PRINCETON, NEW JERSEY**

The first source stated that other than the arrests in October, 1967, there has been no violence or campus disruptive activities. This source added that there is no known outside influence on the SDS chapter and that SDS is viewed upon by most of the faculty at Princeton as a necessary evil.

In addition, SDS sponsored a march on Morven, the New Jersey governor's mansion, in April, 1968 to protest the shooting of a Negro youth in Trenton, New Jersey in rioting following the death of Martin Luther King. ("Newark Sunday News," June 23, 1968).

"The Daily Princetonian," a daily student newspaper at Princeton, New Jersey, in its issue of April 15, 1968 reported on the march to the New Jersey governor's mansion on April 11, 1968 led by SDS. The marchers were protesting the slaying of a black student shot by police in Trenton on April 10, 1968 during a riot there. [REDACTED] class of 1969 at Princeton, a frequent SDS spokesman, stated that "when Trenton goes" the white community should provide legal aid for jailed blacks as well as food, clothing and medicine for the riot victims. Seaton said it was necessary to "expose police brutality" since police policy during riots was one of "repression not containment."

STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. Gus Hall, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, California, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anti-communist proviso was removed from the SDS constitution. In the October 7, 1966, issue of "New Left Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of April 18, 1967, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

"The Star Ledger," February 6, 1968, describes [REDACTED] SDS, RUN.

3. Summary of Campus Activities

Special Agents of the Federal Bureau of Investigation (FBI) observed a picketing demonstration at the RUN, Placement Office, 2 Washington Place, Newark, New Jersey, on November 20 and 21, 1967. Demonstrators opposed the appearance of a United States Naval recruiter and United States policy in Vietnam. Signs carried by the demonstrators stated it was sponsored by SDS. There were no incidents.

On November 29, 1967, a Special Agent of the FBI observed some picketers of the Armed Forces Induction Center, 1006 Broad Street, Newark, New Jersey, carrying signs showing they were affiliated with RUN, SDS.

On February 5, 1968, SDS sponsored a rally at Boyden Hall, RUN, and Thomas Hayden was the main speaker. This was a prelude to a planned demonstration by SDS to take place on February 6, 1968 protesting the visit of a job recruiter from Dow Chemical Corporation. Hayden was described as a founder of SDS, who made two visits to North Vietnam. ("Newark Evening News," February 6, 1968).

Regarding above, officials at RUN halted the recruiting by Dow on February 6, 1968 after three students had to virtually fight their way through some 40 demonstrators. RUN disciplinary summonses were handed out to those who participated in the sit-in. ("Newark Evening News," February 6, 1968).

A third confidential source who has furnished reliable information in the past advised on April 12, 1968 that SDS would stage a demonstration against the war in Vietnam on April 25, 1968 in Newark, New Jersey. It was scheduled to begin at 10am at the Armed Forces Induction Center, 970 Broad Street, Newark, New Jersey, and at 11am it would proceed to Military Park, Newark. The demonstrators would include SDS members from Rutgers. Among the speakers listed for the rally at Military Park was Thomas Hayden.

The New York "Daily News," January 10, 1966, described Hayden as a founder of the leftist SDS.

At Military Park on April 25, 1968, Special Agents of the FBI observed the group where several speakers attempted to address those assembled. The crowd, which had grown to about 300 due to the noon luncheon break, heckled the participants to such an extent that the rally was terminated. Hayden, a scheduled speaker, did not speak.

APPENDIX

STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. Gus Hall, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, California, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anti-communist proviso was removed from the SDS constitution. In the October 7, 1966, issue of "New Left Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of April 18, 1967, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

Re: Bulet, 5/23/68

Set forth is a verbatim editorial from the "Hudson Dispatch", a local newspaper of general public circulation, dated 6/17/68, setting forth comments on pending New Jersey legislative action re campus rebellions by students with New Jersey State Scholarships.

Newark believes that by following this action from its inception, some knowledge will be gained from its results as it effects any future demonstrations in New Jersey colleges and universities, especially if the measure is passed and made law.

Its effectiveness may also be used as an example by other offices to urge other state legislators to pass similar legislation, by submitting its results by counterintelligence methods (letters from angry citizens, letters to newspaper editors, friendly news media).

"CUT STATE AID FOR STUDENT REBELS

"One cannot help but shed a tear and feel that tugging at the heartstrings for the poor students who have joined in campus rebellions and now face revocation of state scholarships they may hold. These 'hippie' characters never had it so good yet they perform like a bunch of dimwitted idiots.

"We only have to see what was done at Columbia and earlier at Berkeley and elsewhere where student long-hairs led protests along with pseudo-intellectual agitators to know that what the state legislature is in the process of doing is right. It's about time, as many have said, to put a halt to this.

INT. SEC.

"One has to agree with Assemblyman Walter Smith, Burlington Republican and chief sponsor of the bill, when he argues that New Jersey 'can't subsidize anyone who abuses the privileges we have given them.' We cannot agree with the emotional stance of Assembly Majority Leader Peter Moraites of Bergen over this issue.

"The measure, which passed the assembly Thursday by a 45-18 vote and was sent to the senate, would empower college authorities to revoke a student's scholarship after certifying that he willfully contributed to the disruption of a college or university. Mr. Moraites is concerned that there is no provision for a hearing. But, isn't the certification enough? Mr. Moraites' opposition is not substantive.

"One facet of the measure, which certainly should be passed by the senate and signed by Gov. Richard J. Hughes, is the implicit indication that the legislature plans to take a firm stance in case student uprisings take place in New Jersey. The residents of this state, we are sure, have had about enough of all this 'uprising' business.

"Why should the state and its taxpayers help those who would disgrace it? Why should any money -- the hard-earned money of taxpayers -- got to support any long-hairs who scream obscenities and dump garbage and worse on the heads of policemen? It's about time a firm line were taken by the state legislature in this matter.

"Of course, all kinds of excuses can be made for the students who rebel, but it is their decision, not that of the State of New Jersey. They're old enough to know wrong from right -- and let's not forget about the phony 'causes.' Now, let's put anyone who has a state scholarship on warning not to 'go off the deep end.'

"This is not an abrogation of freedom of education nor is it an insinuation into the processes of college life. It is, pure and simply, a move to crack down where such action is proper. There must be safeguards for the people whose money is being used. Again, we shed tears for those 'rebel' students -- don't you?"

RE DAVID DELLINGER

By letter dated 5/22/68, the Bureau under the caption "DAVID DELLINGER; SM-C (KEY ACTIVIST)", Bufile 100-384411, Newark file 100-41323, on page two last paragraph mentions the neutralization of DELLINGER by means of counterintelligence measures and requests that suggestions to accomplish this be promptly furnished to the Bureau.

A recommendation is being made according to the 5/22/68, Bureau request and is expected to be submitted under the DELLINGER caption by 6/12/68.

This recommendation advises that the report on DAVID DELLINGER dated 4/30/68, at Newark, enclosed two copies of details of the arrest of DAVID DELLINGER marked "obscene". Page 23 of this report sets forth information with respect to the arrest of DAVID DELLINGER on 7/11/49, on a charge of disorderly conduct, Lewd Act in a subway station men's room with one [REDACTED] DELLINGER was 34 years of age at the time, married and the father of two children. It is recommended that [REDACTED] a writer for the New York Daily News and a contact of the New York Office, be made aware of the existence of this record. While, unfortunately standards of morality among some of the New Left movement are rejected as anachronistic, it may serve as a deterrent to some otherwise naive youths to know of the perversion of the Pied Piper of Protesters for Peace.

In view of referenced Bulet an additional copy of Newark letter on DELLINGER will be designated for Bufile 100-449698.

**RE DETAILED ANALYSIS OF POTENTIAL
COUNTERINTELLIGENCE ACTION AGAINST
NEW LEFT ORGANIZATIONS IN NEWARK AREA**

At the present time there are three universities in the Newark area that have any type of a Student for a Democratic Society (SDS) organization. They are Princeton University, Princeton, New Jersey, with approximately 150 members and perhaps 200 sympathizers; St. Peter's College, Jersey City, New Jersey, with a membership of approximately 12 students and Rutgers University which has an undetermined membership.

At Princeton, according to "The Daily Princetonian" a daily student newspaper at Princeton University in an issue dated 5/6/68, SDS is an unrivaled political force on campus, committed to gaining converts to its particular ideology. The article notes that there is now a danger that student issues and student power concept will be identified with the SDS banner.

"The Star Ledger" a daily newspaper published in Newark, N.J., issue dated 5/3/68, estimates there are approximately 4,700 students in Princeton University.

In order to stall the SDS growth at Princeton it is suggested that a leaflet or a small anonymous newspaper be prepared designed to counteract the impression that about 150 students appear to speak for almost 4,700 students. Newark proposes that six photographs of the dirtiest most unkempt SDS demonstrators, arrested on 10/23/67, at Princeton, in connection with an SDS demonstration be placed together on a plain white background identified by names, with the notation underneath

NK 100-50166

"Princeton is not the 'Planet of the Apes' and the above Princeton students of SDS do not and will never represent the student body".

These photos are "mug" shots taken by the Princeton, New Jersey, Police Department. Distribution on the Princeton campus can either be by a bulk mailing to several fraternity houses or perhaps through the guidance of [redacted] who is employed there. Newark also has the full cooperation of the [redacted]

If the Bureau is of the opinion the idea has some merit then a sample of the leaflet will be prepared and sent to the Bureau for approval.

Newark realizes that any counterintelligence action undertaken on a college campus such as Princeton, must be most discreet and circumspect since any indication that the FBI was even remotely involved in interfering with campus activities could have dire consequences.

As regards St. Peter's College (SPC) [redacted] (conceal by request) stated on 5/9/68, that since the inception of SDS at SPC it has been searching for a cause for which to demonstrate but has been unsuccessful.

With regard to Rutgers, events planned by SDS did not materialize because of lack of enthusiasm and/or a desire by certain persons to keep from getting "involved". Publicity afforded the events was described as horrible by one SDS member.

Regarding all the colleges, they are now closing classes for the summer and counterintelligence plans will have to be kept in abeyance until the fall to achieve full effect.

Regarding Newark's comments on possibly attaching an informant label on "new left" adherents, Newark contemplates the identification of SDS, leaders at Princeton to determine if any of them are receiving federal aid for their education. Newark will also do the same as regards to the SDS demonstrators arrested in October, 1967. If any of these individuals are recipients of government grants then full consideration will be given to cancelling the grants and counterintelligence suggestions will be forwarded to the Bureau.

With the resumption of school in the fall, Newark

NK 100-50166

will closely review campus newspapers to identify SDS and other "new left" leaders so that certain situations, that may be peculiar to these leaders, can be taken advantage of, in attaching the label of informer to these leaders.

Re Bureau letter dated 5/22/68.

With respect to fully developing DELLINGER's financial activity, the following is noted:

On 6/3/68, Mr. [REDACTED] First Clinton National Bank, Clinton, N.J., confidentially advised SA [REDACTED] that there is [REDACTED] but none for DAVID DELLINGER. The account, in the name of [REDACTED] only, maintains an average balance in the low three figures. The statement for this account is sent out quarterly, the last being 5/2/68, when the balance was \$271.00. The balance as of 6/3/68, was \$341.63. Mr. [REDACTED] advised that the checks drawn on this account are made payable to a garage, a department store, a dairy, a heating service, and other such payees typically encountered by [REDACTED]. It is his recollection that checks have been deposited in this account drawn on a New York bank by DAVID DELLINGER, but of this he advised he could not be sure, since it is merely a recollection. Mr. [REDACTED] expressed a willingness to cooperate with this Bureau and to furnish information concerning this account of [REDACTED] on a confidential basis. This information may not be made public without the issuance of a subpoena duces tecum addressed to Mr. [REDACTED] First Clinton National Bank, Clinton, N.J. Newark will review the checks drawn on the [REDACTED] account shortly before 8/2/68, to determine whether they have any significance in regard to the investigation of DAVID DELLINGER greater than indicated by Mr. [REDACTED] description of the account usage.

Concerning Mr. COMPTON's recollection that checks have been deposited in this account of [REDACTED] drawn on a New York bank by DAVID DELLINGER, it is noted that a check was drawn on the account of Liberation Magazine dated 4/15/68, and made payable to [REDACTED] in the amount of \$100.00.

This check was deposited in the First Clinton National Bank, Clinton, N.J. This information is not to be made public without the issuance of a subpoena duces tecum directed to Mr. [REDACTED] Chemical New York Trust Co., 205 Broadway, New York, N.Y. It is at this bank that the Liberation Magazine account is maintained. It is noted that DAVID DELLINGER, Editor of Liberation Magazine, is eligible to sign on this account.

Review of the account of Liberation Magazine also shows a check dated 4/23/68, in the amount of \$50.00 and made payable to DAVE DELLINGER, was deposited in the Chemical New York Trust Co. New York is requested to determine whether DAVID DELLINGER has an account at the Chemical New York Trust Co., other than that for the Liberation Magazine.

In regard to the Bureau instruction that Newark should promptly consider whether a toll check on the subject's residential phone would be productive, the following is noted:

The New Jersey Telephone Co. Directory for March, 1967, lists telephone number 638-6872 to DAVID DELLINGER, R. D. Hampton, N.J. The New Jersey Telephone Co. Directory for March, 1968, includes no listing for DAVID DELLINGER or any other DELLINGER. On 6/3/68, Mr. [REDACTED] was contacted by SA [REDACTED] to determine whether DAVID DELLINGER still had a telephone. At the mention of DAVID DELLINGER's name, Mr. [REDACTED] expressed indignation at DELLINGER's pacifist activities, gratification that his activities were not being overlooked, and admiration for the effective work of the FBI. He volunteered the following information most eagerly; but on a confidential basis:

DAVID DELLINGER has a telephone at his residence, R. D. Hampton, N.J., the number for which is unpublished in the New Jersey Telephone Co. Directory for March, 1968. Mr. [REDACTED] stated that this number is 638-6542. Bills for the service are sent to DAVID DELLINGER, Liberation, 5 Beekman St., New York, N.Y. Mr. [REDACTED] advised the billing for the period 4/22/68 to 5/25/68, included 70¢ for the following toll calls, which were all the toll calls made during that period:

DATE	CHARGE	TELEPHONE NUMBER CALLED	LOCATION
1968			
4/22	15¢	201-782-5727	Flemington, NJ
4/22	15¢	201-782-5727	Flemington, NJ
5/5	25¢	[REDACTED]	Flemington, NJ
5/18	15¢	201-782-5727	Flemington, NJ

NK 100-41323

Mr. SCHAUB advised that 782-5727 is listed to the Hunterdon Central High School; 782-8005 is listed to [REDACTED], Flemington, N.J. (It is noted that the indices of the Newark Office contain no reference to a [REDACTED])

The above information may be made public only after the issuance of a subpoena duces tecum addressed to [REDACTED] New Jersey Telephone Co., 14 Mine St., Flemington, N.J.

Mr. [REDACTED] volunteered, on a confidential basis, to provide information concerning the toll calls billed for the number 638-6342.

There are no references in the indices of the Newark Office identifiable with [REDACTED]. Bureau authority is requested to again contact Mr. [REDACTED] on or about 7/15/68, to determine whether the above billing is atypical and that a review of toll calls on a regular basis would be more productive than is indicated in the above four toll calls.

[REDACTED] Garage, Glen Gardner, N.J. and resident of R. D. Hampton, N.J., advised on 6/3/68, that [REDACTED]

He sees DAVID DELLINGER in the vicinity of the residence infrequently, but then only on week-ends, the last time being about 5/12/68. Those leaving the DELLINGER home by car [REDACTED] to get out to the highway - 1.2 miles away. DAVID DELLINGER drives a late model blue Renault. In the summer, when the foliage is heavy on the trees [REDACTED] cannot observe the DELLINGER home, but in the winter, he has relatively easy visual access to the DELLINGER home and its surroundings from his own residence. [REDACTED] has not observed meetings or large gatherings at the DELLINGER residence.

Mr. [REDACTED] Glen Gardner, N.J., advised that DELLINGER's mail is delivered out of the Hampton, N.J. Post Office; however, the DELLINGER residence is closer to the Glen Gardner Post Office. Mr. [REDACTED] They have used the Glen Gardner Post Office to purchase stamps and to mail letters. However, he has not seen DAVID DELLINGER since late in the summer of 1967, on a Saturday. Mr. [REDACTED] pointed out that the mail box in which the mail is placed for DELLINGER at R. D. 1, Hampton, is about one mile from his residence.

Clinton, N.J. [redacted] advised on 6/3/68, that this [redacted] covers Hampton, N.J. He stated that while he knows of DAVID DELLINGER because of his activities with respect to such matters as peace marches in Washington which receive national press coverage, he knows of no organized activity in regard to such matters being carried out by DELLINGER in the Hampton, N.J. area.

In view of the above, coverage of DELLINGER at his rural, week-end residence appears impractical, in that it could not be carried out under secure conditions and would not be productive in achieving desired objectives. It is the plan of the Newark Office to again review the bank account of [redacted] as well as the toll charges to the telephone at the DELLINGER residence. Contact will be maintained with [redacted] and with Post Office personnel at both Glen Gardner and Hampton, N.J. It is believed that leads with respect to intensified coverage of DAVID DELLINGER while he is in the Newark area, other than from the above sources, would emanate from the sources in New York City, where he is active. In either event, it appears that DAVID DELLINGER is not engaged in any organized activity in the Newark area.

As has been previously pointed out, the DELLINGER residence is in the Western part of New Jersey, about 12 miles from the Pennsylvania border and not within normal commuting range of the employment of DELLINGER in New York, a distance of approximately 75 miles from Hampton. Under these conditions, it is considered that DELLINGER would require a place to maintain personal accoutrement in New York City and not merely a place to sleep.

While it is a fact that DELLINGER has a residence in Hampton, N.J., it is also a fact that his activities in which the Bureau has an interest, are based in New York, for example, Liberation Magazine, National Mobilization Committee to End the War in Vietnam, and the Fifth Avenue Vietnam Peace Parade Committee. Further, the bank accounts for these organizations, in which DELLINGER holds officership, are located in New York City. In addition, [redacted] advised on 4/16/68, that DAVID DELLINGER stays with various friends while in New York City. Since the subject is, in effect spending the major portion of his time in New York, it is recommended by Newark that the New York Office be made Office of Origin in this matter.

A recommendation for inclusion of DAVID DELLINGER on the Agitator Index is going forward by separate communication. In regard to recommendations of a counterintelligence nature, the following is noted:

The report on DAVID DELLINGER dated 4/30/68, at Newark, enclosed two copies of details of the arrest of DAVID DELLINGER marked "Obscene". Page 23 of this report sets forth information with respect to the arrest of DAVID DELLINGER on 7/11/49, on a charge of disorderly conduct, Lewd Act in a subway station men's room with one [REDACTED]. DELLINGER was 34 years of age at the time, married, and the father of two children. It is recommended that [REDACTED], a writer for the New York Daily News and a contact of the New York Office, be made aware of the existence of this record. While, unfortunately, standards of morality among some of the New Left movement are rejected as anachronistic, it may serve as a deterrent to some otherwise naive youths to know of the perversion of the Pied Piper of Protesters for Peace.

DISRUPTION OF THE NEW LEFT

Re Bureau letter to Albany, 5/10/68.

It is believed that in attempting to expose, disrupt, and otherwise neutralize the activities of the "new left" by counterintelligence methods, the Bureau is faced with a rather unique task. Because, first, the "new left" is difficult to actually define; and second, of the complete disregard by "new left" members for moral and social laws and social amenities.

It is believed that the nonconformism in dress and speech, neglect of personal cleanliness, use of obscenities (printed and uttered), publicized sexual promiscuity, experimenting with and the use of drugs, filthy clothes, shaggy hair, wearing of sandals, beads, and unusual jewelry tend to negate any attempt to hold these people up to ridicule. The American press has been doing this with no apparent effect or curtailment of "new left" activities. These individuals are apparently getting strength and more brazen in their attempts to destroy American society, as noted in the takeover recently at Columbia University, New York City, and other universities in the U.S.

It is believed therefore, that they must be destroyed or neutralized from the inside. Neutralize them in the same manner they are trying to destroy and neutralize the U.S.

It is Newark's opinion that this can possibly be done in two ways:

1. The U.S. Government must be convinced, through the proper departments, that it must stop subsidizing its

own destruction. Each field office should acquire the names and backgrounds of all students of the "new left", who have been arrested for the very type of activity we are now trying to curtail or halt. Any Government subsidization to these individuals should be stopped.

They must be taken out of the ranks of this predominantly college-age movement; separate them and diminish their power.

2. Certain key leaders must be chosen to become the object of a counterintelligence plot to identify them as government informants. It appears that this is the only thing that could cause these individuals concern; if some of their leaders turned out to be paid informers. Attacking their morals, disrespect for the law, or patriotic disdain will not impress their followers, as it would normally to other groups, so it must be by attacking them through their own principles and beliefs. Accuse them of selling out to "imperialistic monopoly capitalism".

THOMAS EMMETT HAYDEN
KEY ACTIVIST, NEWARK DIVISION

Newark believes that it might be possible to attach the stigma of informant or Government "fink" to HAYDEN because of the apparent unlimited finances at his disposal, enabling him to take numerous trips in and out of the U.S., without any job or other means of financial support. Also, the ease with which he travels to communist countries, his reception there, the privileges afforded him, and his eventual return with no actual remonstrations by this Government.

Newark suggests that after HAYDEN visits a certain city or country, that a news release, datelined Washington, D.C., be prepared noting that "according to informed Government sources", etc., certain events happened in that certain city or country which would reflect back on HAYDEN through similarity of circumstances or events. It is suggested further that these news releases be collected and when several promising items are collected, they be turned over to a representative of a cooperative news media with a suggestion that a feature

writer be given the task of writing up a story pointing out the coincidences of HAYDEN's visits to certain cities and news stories emanating from Washington, D.C., pointing to HAYDEN as the source. The connection may be spotlighted by including certain sidelights or confidential bits of information which may only be known to HAYDEN and a Bureau source.

It is realized the above will take time, but in order for the plan to be effective, it must have a solid basis and a continual indictment.

One copy of this letter is being sent to Chicago since THOMAS HAYDEN changed his residence to there.

One copy of this letter is being sent to NYO for information because of available transportation facilities which give "new left" demonstrators in this area the opportunity to choose either New York or New Jersey locations for disruptive tactics.
